GO PREPARED™

## "Our Shack" Pieman Heads

Well, we made it "OUR SHACK" materials went in fine, no major damage. If it weren't for the "Black Cat" everything would have been ok with troopie.

It was a great weekend enjoyed by all, just a big thank you to everyone that brought everything in from bricks to the wood heater, boards to tin.

This trip made less trips in for us, and we are thankful you were able and willing to give a hand.

Hopefully your meal on Saturday was ok, cooked by the *terrific* cook Anna (and baby) and the BBQ crew.

We plan to have many more trips like this. We can't wait for the next one. Hopefully Alex and James will have others to join and enjoy the ride in.

There will be no baby next time as it was given up to next *pretend* mother.

Trip proved TOYOTA number one as TRITON failed in water hole, MONGREL tyres got stuck and the old TROOPIE marched on.

Thanks for a traffic weekend for all how took part in this enjoyable trip.

THE OUR SHACK GANG!

PS: By the way, I received a good mark for the child care of the baby.

PPS: Thanks for all the borrowed parts. (David Redpath & Mick Padman)
